SUMMARY

A self-motivated, creative, and hard-working Full Stack Developer with a passion for application development and a proficiency in JavaScript technologies. Bringing a background in healthcare which has fostered effective critical thinking and team communication skills and a keen eye for details. Excited about the opportunity to create high-quality, scalable, and lasting web applications.

TECHNICAL SKILLS

Frontend: CSS3, HTML5, JavaScript, jQuery, Bootstrap, React-Bootstrap, styled components, Apollo
Backend: Node, MySQL, MongoDB, Express, Handlebars, ReactJS, GraphQL

PROJECTS

My DigiLib: <https://bit.ly/3pjFYS9> | **GitHub:** <https://bit.ly/3eS7oJM>

Owner

A node application to digitally catalog a home library. It performs a search of the Google Books API based on the ISBN of books. The user may also manually enter a book's information if the ISBN is not found.

- Solo final project of a full stack web development program.
- Developed with MongoDB, Express, ReactJS, Node, React-Bootstrap, styled components, CSS3, HTML5L, JavaScript

My Schtick Kick: <https://bit.ly/38FZ4vE> | **GitHub:** <https://bit.ly/3kmzfDf>

Contributor

A blog style site that allows hobby enthusiasts to describe their hobbies and to invite users to seek additional information about a particular hobby displayed.

- Team project – my tasks included CSS3 styling, implementing the JavaScript file upload functionality, debugging the edit.js file functionality, and preparing the presentation for demonstration.
- Developed with Node, Express, Handlebars, JavaScript, HTML5, MySQL, Sequelize, CSS3, Bootstrap

RV-Roadtrip: <https://bit.ly/3krm4Vq> | **GitHub:** <https://bit.ly/36uWh5R>

Contributor

A website designed to simplify the process of finding campgrounds in national parks that allow RVs and gives a seven-day weather forecast to help users plan a visit.

- Team project – my tasks included JavaScript fetch functionality, CSS3 styling, division of assignments, parsing information from the National Park Service API and OpenWeather API.
- Developed with JavaScript, jQuery, HTML CSS3, Bulma

EXPERIENCE

Registered Nurse

Chandler Regional Medical Center

Chandler, AZ

2018-2020

Lankenau Medical Center

Wynnewood, PA

2016-2018

Employed critical thinking and effective team communication skills to manage all phases of operative care for patients undergoing cardiac surgery. Participated in the implementation of a new electronic health record for the perioperative area.
